Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	05 February 2026
Team ID	LTVIP2026TMIDS81710
Project Name	ToyCraft Tales: Tableau's Vision Into Toy Manufacturer Data
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Data Visualization	Import toy manufacturing data into Tableau Create year-wise and state-wise visualizations
FR-2	Interactive Dashboard	Provide filters for year and region Enable interactive charts and tooltips
FR-3	Dashboard Analysis	Analyze trends and patterns Compare toy performance across regions
FR-4	Storytelling	Create story points from dashboards Present insights in a logical sequence
FR-5	Data Filtering and Comparison	Allow users to filter data by year and state Enable comparison between different regions and time periods
FR-6	Insight Generation	Highlight key insights from dashboards Support decision-making through visual analysis

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	**Usability**	The dashboard should be easy to understand and navigate for users.
NFR-2	**Security**	The data used in the dashboard should be handled securely.
NFR-3	**Reliability**	The dashboard should display accurate and consistent results.
NFR-4	**Performance**	The dashboard should load and respond quickly to user interactions.
NFR-5	**Availability**	The dashboard should be accessible whenever required.
NFR-6	**Scalability**	The solution should support additional data in the future.
