Project Name: ToyCraft Tales: Tableau's Vision Into Toy Manufacturer Data

Scenario: A user exploring a Tableau dashboard to understand toy manufacturing trends in the US.	Entice How does someone become aware of this service?		Enter What do people experience as they begin the process?	Engage In the core moments in the process, what happens?			Exit What do people typically experience as the process finishes?	Extend What happens after the experience is over?	
Experience steps What does the person (or people) at the center of this scenario typically experience in each step?	Notices the project during internship review or demo.	Discovers the toy manufacturing dashboard while searching for market insights.	Opens the Tableau dashboard.	Analyzes trends by year and region.	Compares state-wise and manufacturer-wise performance	Explores interactive dashboards in detail	Completes data analysis.	Revisits dashboard when needed.	Refers to insights for future analysis
Interactions What interactions do they have at each step along the way? • **People:** Who do they see or talk to? • **Places:** Where are they? • **Things:** What digital touchpoints or physical objects do they use?	Reads project title and brief description.	Reads the dashboard title and overview.	Views charts, graphs, and filters.	Uses filters and hover options.	Switches between charts and views	Interacts with dashboards using mouse and dropdowns	Scrolls through final dashboards.	Shares project with others.	Opens saved dashboards again
Goals & motivations At each step, what is a person's primary goal or motivation? ("Help me..." or "Help me avoid...")	Wants to know what insights the project offers.	Understand whether the dashboard is useful for analysis.	Understand toy manufacturing data.	Compare performance and identify trends.	Get insights to support data-driven decisions	Understand performance differences clearly	Gain overall understanding.	Use insights for reference.	Support future planning and reporting
Positive moments What steps does a typical person find enjoyable, productive, fun, motivating, delightful, or exciting?	Clear project title and purpose.	Clear purpose and clean dashboard layout.	Attractive and interactive visuals.	Clear insights from visuals.	Interactive filters make analysis easy	Patterns are easy to understand visually	Feels informed and confident.	Easy access to information.	Useful for presentations and reviews
Negative moments What steps does a typical person find frustrating, confusing, angering, costly, or time-consuming?	Unclear how the dashboard works.	Limited explanation about the data source.	Initial confusion with charts.	Too much data on one screen.	Some charts may need explanation	Takes time to understand complex views	No summary section.	Cannot export data.	Limited export or sharing options
Areas of opportunity How might we make each step better? What ideas do we have? What have others suggested?	Add a simple introduction and overview.	Provide a short teaser or preview of key insights to attract users.	Add labels and tooltips.	Highlight key findings clearly.	Add short explanations near charts	Simplify complex dashboards	Add a conclusion or summary.	Add download or export options.	Enable dashboard updates with new data
