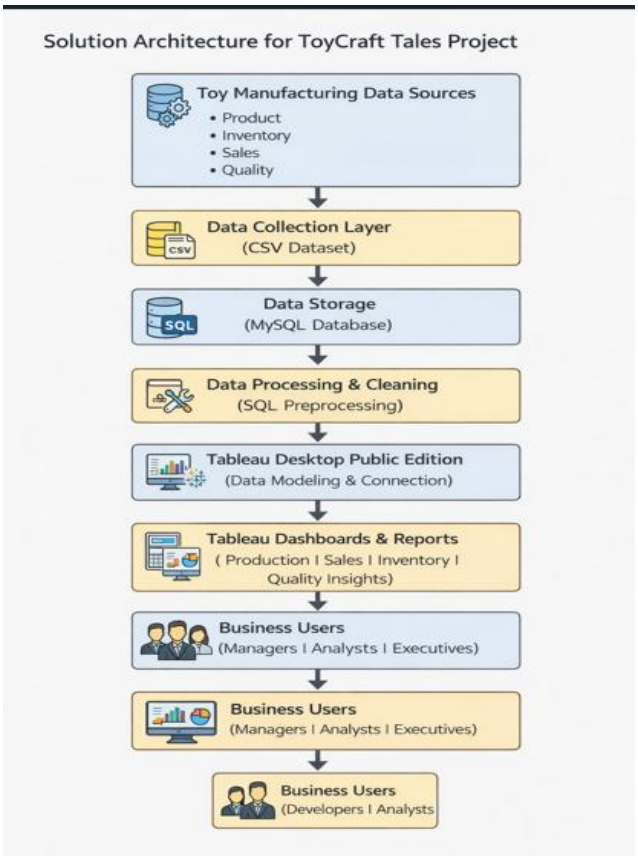
Project Name	***Toy Craft Tales: Tableau's Vision into Toy Manufacturer Data***
Maximum Marks	**4 Marks**

Solution Architecture:


The solution architecture for **ToyCraft Tales: Tableau's Vision into Toy Manufacturing Data** bridges the gap between toy manufacturing business problems and data-driven technology solutions. It identifies the best use of Tableau to analyze and visualize production, sales, inventory, and quality data. The architecture defines the system structure, data flow, and key features, and provides clear specifications for developing, managing, and delivering an efficient and scalable analytics solution.
